

The Flowering of Christ 6

Wednesday, February 23, 2022 4:30 am

1. Good morning to all. It is with sadness that I speak today, as the absence of love is leading to bloodshed on a large scale in eastern Europe. Christ must hold the frequency of love and peace, as the world continues to produce fear-driven characters who lead it down the wrong path. In this time of Christ, the light of God illuminates the darkness.
2. Today's question is twofold; "What does the 'Flowering of Christ' (title of this series) refer to and how can Christ make a difference in the world?"
3. Just as plants produce flowers when they mature, so do souls. Each flower is a thing of beauty in and of itself. This is a new aspect of love, never seen before, a new characteristic, a new manifestation of being.
4. Christ (God in man) never stops growing and is always producing fruit. It is my hope that this series will help dispel myth and confusion and in doing so, help each Christ on the earth at this time to shine light, like never before.
5. Christ makes a difference in the world by being itself, unconditional love for all. Whether it is actively doing an act of service or just being still by holding the frequency of love, Christ helps awaken all souls from their deep slumber so they too can continue to grow in the ways of love and assist their assigned characters to do the same.
6. With the love of Christ,
Mother Mary

The Flowering of Christ 7

Sunday, February 27, 2022 5:00 am

1. Greetings, my precious ones. Today's question is an especially interesting one.
2. Question: "Mother Mary, I know about the concept of awakening. Is it possible to fall back asleep?"
3. Yes, this is precisely what has transpired. Many started down the path of enlightenment and achieved a partial level of knowledge and then stayed there. They have not fully awakened yet and are only sleepwalking. Their egos decided to only let the awakening process go so far, so as not to cause too much discomfort. These brothers and sisters keep a comfortable distance from the higher levels of mastery. They read books they are familiar and comfortable with and that's pretty much the end of the road for them in this lifetime.
4. Sleepwalking can occur at any stage of the enlightenment process. The ego can move from the back burner to the front burner at any point, although this is exceedingly rare at the end-stage. Christ is simply too aware and too powerful to allow this to happen. Christ is in control.
5. Thank you for your questions, everyone. Keep them coming.
6. Send love to those in the path of destruction and to those who are creating destruction in the name of annexing property, something that none of us can do, in reality. No one truly owns anything. The earth is to share while our spirits grow. The Russian invasion of Ukraine is the utmost example of illusionary thinking. May peace prevail and if it doesn't, the light of Christ will still call for all to come in out of the cold and start or continue their paths to wholeness.
7. With the love of Christ,
Mother Mary

Special Address

Sunday, February 27, 2022 5:25 am

1. Good day to those who are interested and open to new avenues of discovery. There are still many Doubting Thomases who don't believe that I can express through different channels, but nevertheless, it is I, the one known as Jesus. The doubters will not stop me from performing my duties as an overseer and caretaker of the earth project. They can only close their own ears and encourage others to close theirs. I will continue to speak none the same.
2. There have been wars throughout human history. They are horrific examples of what I have often referred to as something that has a lot of moving parts. The invasion of Ukraine has a very real possibility of negatively affecting life on the planet for everyone, just as other wars have in the past. Many today have not experienced the hardships of life during wartime. The recent wars that have been fought have primarily been contained to a particular theater. This one has the potential to spread beyond borders.
3. The future hasn't been created yet and looking at trends and likelihoods is not an exact science, so I can't say with certainty that this will happen or that will happen.
4. What I can say, and I Am shouting it so that even the deaf can hear it, is that we must not forget who we are in truth. We are Love personified and if there is a large-scale conflict, then that is our assignment. We will give love no matter what stands before us, no matter how difficult the circumstances, no matter how heartbreaking the images are. Send love to President Putin and his soldiers. It is time for their souls to awaken as well!
5. In peace, we travel.
Jesus
