

The Flowering of Christ / Resurrection 6

1. Fancy meeting you here! Hello loves. I hope this finds all the downsized Christ offices doing well and thriving.
2. My first question is by far the one that is the most asked by the most Christs.
3. 'Mother Mary, so much emphasis has been placed on blessing others over the past couple of years. Why is this so important if the world is an illusion and doesn't really matter?'
4. I will answer this in numbered responses.
 1. Your brain is used to cursing others, not blessing them. Conscious blessing is a good way to retrain and repurpose your mind to be in alignment with love. It's that simple.
 2. If you've been paying attention, you know that the world is a purposeful alternative reality for the growth of souls, which are aspects of the Divine. This world and all worlds are laboratories where God grows more of itself. This has not been explicitly stated in spiritual books and the opposite has been explicitly stated, so I certainly understand the confusion. In the form of these writings during the pandemic era, we have all set the record straight, although once people make up their minds about things, it is hard to get this message across.
 3. There is great purpose in the world, not as much from the ego's standpoint, as from the soul's.
5. Next question. 'Mother Mary, I have a hard time not looking at certain people and just shaking my head.' I hear you, dear. Just know in your heart that there is a dance going on between the ego and the soul and that there is wonderful potential there.
6. With great love,
Mother Mary

Secrets of Christ 7

1. Christ is the most active in the messiest of lives. The prim and proper ones may in fact be the characters who are resisting their souls the most. Don't judge by appearances because you really don't know what's going on inside. (Presented by Mary Magdalene)
