

Departure: The Mystery of God

July: Forgetting the Old Parameters

Sunday, July 2, 2023 6:45 am

1. Hello, my sweets. The Mother Mary aspect of God is reaching out and communicating with many other aspects of God today through the instrument of God known as Rick. Just with this single example, we demonstrate and realize that each of us truly is not separate from each other. We are part of the same living Being, which is God. In the not-too-distant past, this level of awareness or consciousness could not have been achieved. I Am Mother Mary, and I Am literally part of you, as is all of God. Your awareness of yourself has been expanded to include everyone and everything, seen and unseen.
2. What has miraculously happened is that you honor the fenced-in backyards and the boundaries they represent, but you know they don't really exist. They are only temporary representations of what belongs to a single consciousness. They don't apply to you. The collective consciousness of God does not need fences. It is us and it all belongs to us because we are boundless. We are in form, and we are formless.
3. Since 'A Journey into the Unknown' first began in February of 2020, and then 'Arrival: Living in the Material World', and now 'Departure: The Mystery of God', what has happened through these series is the melding of the two states of form and formless, making them one inclusive state of Being. This is what God is. God is both form and formless. God is both movement and stillness. God is limitless and is actively changing life here to include and not exclude all aspects of Itself.
4. Our old ideas about God have changed. There literally are no more parameters and we include ourselves when we think about God because God is not separate from us, and we are not separate from God. The separation or rift has been reconciled or healed.
5. If this can be accomplished with a very small group of people, then it can be accomplished with all people. The old parameters of human and Divine as separate states do not exist any longer for those who have been on this journey toward healing the mind and soul, by joining them as one state.
6. You see, dear ones, there was a great master plan all along. There was a subtitle we purposely failed to mention. This has been 'A Journey into the Unknown: Where Body and Soul are One State'
7. Parameters? Who needs them? Not me and, if I can be so bold to speak for each of you, not you either. Togetherness, not separation, is where God is and where we are because we are part of God, not damned sinners who have to obey or be punished. Only a separate mind, not yet awakened, would think of it in those fear-based terms.
8. Until August, my lovely ones. Continue to bless and not curse. Ask souls to awaken and rejoin the fold. Then, their lives will truly begin as they travel into the unknown with us.

9. Love, Mother Mary

End Time: 7:23 am
