

Departure: The Mystery of God

September: Shifting into New Purpose

Sunday, September 3, 2023 5:00 am

1. Once again, we meet in joy as we discuss purpose, the new grand purpose that exists when God has reclaimed and reprogrammed the body to reflect light instead of repelling it. A creature cast in darkness and shadows can allow its own light to shine, becoming a beacon of hope in a dark world.
2. You can think of this process as becoming angelic, becoming an angel on the earth, in human clothes, with a human name and a past when there were times when someone was anything but angelic. This is the shift from me to you, from darkness, confusion, and ignorance to light.
3. Angels serve humanity and all types of life in form. With this shift in purpose, God has on-the-ground presence with her human angels, able to do all kinds of things that angels in the spirit realm cannot do.
4. There may be one here, one over there, and one over that way. Christ or God in man is also a human light bearer, an angel on the earth, both doing and being.
5. Here's a question to ponder. Does being Christ, being an angel, happen all the time? No, dear ones, the ego still wants to have a say, but Christ is now the dominant one. It talks more than the ego does. After the shift occurs, Christ keeps growing, and keeps control, even when the ego has its little outbursts and tantrums.
6. What used to be the tiniest of seeds is now a strong tree, able to withstand the strongest storms. The human angel of God is unique because, unlike its counterparts in the spirit realm, it is both spirit and mortal, human and divine, a new being in Christ.
7. Until October, dear ones. I so look forward to the time we spend together. Next month, I have an exciting announcement.
8. Love equals light.
9. Love, Mother Mary

End Time: 5:30 am
