## April: Awareness - Vision

(Correlates with [Soul Chapter 8 April: Awareness](#))

1. Greetings Christ Community! There will be no doom and gloom emanating from me this month or any month because I only focus on the positives that come from living a life of love. Yes, we live a life of love in a dark world that is rapidly getting darker. Yet we must remember that we are the light in a dark world, filled with misguided characters of all types who do the only thing that they know to do, which is to follow their lord and master, the ego. We are seeing the main characteristics of the ego play out right before our eyes in unmistakable ways. We are seeing the desire for power and control, the desire to punish those who criticize, and the demonization of large groups of people. We are aware of our surroundings, our canvas if you will, and know that these are the cards we have been dealt. This is where we do our work of blessing and doing as Christ, as full-bodied mature souls. The qualities of the Soul are what we shine. This is our light. We demonstrate that giving and receiving are one in truth. We demonstrate that love is the answer to fear's call for it. We demonstrate that love does not condemn and only blesses. We demonstrate oneness with all and not the illusion of separation between us vs. them. We demonstrate oneness with God and not separation from Her. Even the subtitle of this series is called "From Me to You". It isn't "Me Against You" or "Me in Spite of You". Christ is the solution and the ego is the symptom. Christ is heart and ego is mind and nothing but mind. Rick and Christina, let's call this one "Reality of Awareness in 2025".

2. There will be more to follow.

3. Love and blessings,  
Mother Mary

### The Soul is the Voice of Reason

#### April: Awareness - Vision

1. Awareness is not only about what is presenting itself, but it is also about what is emerging, what is wanting to be a bigger part of the conversation. If awareness says, “this doesn’t seem right” or “something seems off about this”, then the soul’s voice of reason is wanting to be heard. If it is listened to, vision of the whole picture of any situation can be obtained. Vision allows the character to see more than what meets the eye. It allows the wisdom of the small, quiet voice to come to the surface. This enables the character to evaluate the loud voice of the ego and to choose right action over harmful action that the ego may be presenting. This is commonly known as following your conscience or following your better angel. Because the ego, or devil with horns if you will, is good at disguising itself, it is frequently difficult to determine if it is, in fact, generated from fear. It could be something cloaked in a religious belief, or a human construct, or a political ideology. The soul will shine its light on this and help you to see the truth about it. There are a lot of wolves in sheep’s clothing out there. They smile and seem “nice”, and yet they have a fear-based agenda that they hope you will buy into. Souls have seen every trick in the book. Let yours show you the ropes dear ones. Let’s call this one “The Soul is the Voice of Reason”. There will be one more letter to follow. It will be a prayer during dark times.

2. Love and more love,  
Mother Mary

## Prayer During Dark Times

### April: Awareness - Vision

(Correlates with [Soul Chapter 8 April: Awareness](#))

*Sunday, April 13, 2025 7:05am*

1. We begin each day by waking up, putting our feet flat on the floor, and taking in numerous and full inhales and exhales. At this point we are ready to repeat this prayer as an individual Christ, and as a member of the Christ Community. It can be read as it is written, or individualized with changes here and there, to better suit an individual Christ's circumstances. Let us begin. I offer this prayer to you, the lights of the world. In power.

2. Love,  
Mother Mary

3. It is dark even in the light of day.  
The fear is widespread and palpable.  
I Am here to serve the OneSelf as Christ,  
God in humankind.  
My relationship with the world  
is one of unity.  
I bless any and all,  
no matter what they may have done,  
or what they may support or disavow.  
I am outside of the conflict now.  
My eyes may show me things that bring tears.  
My ears may hear things that bring sadness,  
but I will carry on.  
I Am a type of soldier now,  
not one to bring strife,  
but one to bring comfort and joy.  
This is my only assignment now.  
I have completed my life lessons  
and become one  
with the soul of the eternal.  
I lead with love,  
no matter where life takes me.  
I only bless  
and help God's seeds to flower and bloom.  
I Am an extension of the Source of All,  
the Great Divine Feminine.  
Now we are ready for this day's journey.  
Blessed Be.
