1. My, how time flies when you're having this much fun! Greetings to all in the Christ community out there. Let me please remind each of you to remember these two crucially important truths as you go about your daily lives and ministries.

2. #1 The strong presence of Christ on the earth at this time is the primary reason for all of the fear-based rhetoric and behavior that you each observe. These things are a reaction from collective egos toward a perceived threat. Although it is misdirected toward other individual and collective egos, its root cause is that, finally, God energy is here now. It is currently sprinkled around but will grow like wildfires. Don't be discouraged dear ones. Always look for the cause. The energy of God is the most threatening thing in the universe to any and all egos. Expect things to seemingly stay volatile before they get better. Christ's energy will help everyone to transition to their own true identities and put all of the warring identities in the past.

3. #2 Imagine for a moment that you are a mad scientist. You would know that certain chemical compounds would combust if they were introduced to one another. This is a natural process. Well, this has happened and must continue to happen to get the attention of most people, who are very comfortable with the same old, same old. This combustion will produce conditions that are ripe for souls to grow in. Now, with [Soul in the Driver's Seat](#), we have the educational material needed for this revolutionary change. I will speak to you again later today.

4. Love, the mad scientist,  
Mother Mary

1. We are calm. We are joyful. This isn't the time for being a "neat freak" and insisting on order. Our canvas is disorder and chaos. Try to get more comfortable with man-made messes and disasters as you move through your days. Bless everyone like never before. Now, you each have the tool of [Soul in the Driver's Seat](#) to use as a reference if you feel that the time and place is appropriate. It has everything that everyone needs to start to understand themselves and the world, for perhaps the first time. They can start their individual life reviews, and then start their own new lives as Christ, ministering to and serving the wonderful OneSelf. We will add to our numbers and subtract from the numbers of the ego-dominant. With each new Christ, the world will shift to the new way of unconditional love and service. If this isn't togetherness, I don't know what is!

2. Until October loved ones.  
love, Mother Mary
